PROJECT EXPERIENCE

Mom 'N Pop - Restaurant Locator

<https://momnpop.herokuapp.com/>

An crowd-sourced interactive map application that allows users to find local restaurants and recommendations in the area.

Responsibilities/Tools

- Responsible for the front-end JavaScript that frames the user interface and developing the interactive map
- Express, Sequelize, MapBox GL JS, Geocoder API, Yelp API, Heroku
- <https://github.com/madeleineprak/Mom-N-Pop>

Find Your Hike - Hike Finder

<https://madeleineprak.github.io/Find-My-Hike/>

An app for hike lovers that helps reduce the stress of planning a hiking trip by having all the essential details in one easy-to-use application.

Responsibilities/Tools

- Responsible for the front-end user interface and displaying the information from the various APIs
- Google Developers API, Yelp API, Hiking Project API
- <https://github.com/madeleineprak/Find-My-Hike>

Get The Scoop - News Viewer

<https://getthescoop.herokuapp.com/>

An app that scrapes from hacker news and allows the user add personalized notes to save and review later.

Responsibilities/Tools

- Responsible for the full development including scraping the news site, adding article notes, and database management
- Google Developers API, MapQuest API, Yelp API, Hiking Project API
- Mongoose, Express, Express-Handlebars, Cheerio, Heroku
